

WMO Calendar 2013

- Celebrating the International Year of Water Cooperation

The image shows the cover of the World Meteorological Organization (WMO) Calendar 2013 for the month of February. The main visual is a large, rusted metal pipe with water spraying out of it, set against a dark, rocky background. The WMO logo is in the top left corner. Navigation buttons for months (Cover, Jan, Feb, Mar, Apr, May, Jun, Jul, Aug, Sep, Oct, Nov, Dec) are at the top. A quote on the right reads: "Cities lose, on average, one third of their water supply as it passes through the pipes before reaching consumers." Below the quote is a "Download Calendar (PDF)" button. The CineSat logo and a descriptive paragraph about their satellite image data are also present on the right. At the bottom, there is a calendar grid for February 2013, showing days from 1 to 28. The CineSat logo is in the bottom right corner of the calendar area.
