

MyFiles - Help

Secure File Exchange

MyFiles is a secured web service for exchanging files between GEPARD and its customers and partners. It features individual user login and secure file transfer. The web addresses for file exchange services are

- https://www.gepard.at/myfiles (for project and office use)
- https://www.cinesat.com/myfiles (for CineSat support)

Open one of these links with an up-to-date web browser that understands **HTML5**. Enter your user name and password on the login prompt. On successful login, an intuitive file manager will be launched that allows for easy up- and download of files.
